ite managers is not to convince with reason and logic but they try to dazzle and confuse with show and blare of trumpets.

Last week, we published Geo. R. Lynn's formal letter of acceptance of the Republican nomination for the office of sheriff of Hopkins county. Mr. Lynn is making an active canvass. He begins his canvass under auspicious circumstances, being widely and favorably known by the people of the whole county. His opponents admit that George is very popular and very well equipped for the office to which he aspires, and the prospects for his election are very favorable.

SPEAKING of Urey Woodson's plan to send Bryan to Paducah to make a speech provided the citizens will put up \$150 to pay for a special car, a free silver paper in the First district kicks against this extravagance. Bryan could buy a regular first class ticket from Nashville to Paducah for less than ten dollars. But perhaps the free silver farmers in that section have sold so much dollar wheat and ten dollar tobacco that they can afford \$150 cars to transport Bryan in order that he may endeavor to convince them that there is no prosperity.

THE AMERICAN home market is the greatest in the world, and it makes a great difference whether the patrons of that market are able to buy freely or are compelled to economize. Thus it is that Protection helps the farmer, whether applied directly to his products or not. His market at home is widened by every extension of home industry, and it is easy to prove that no small portion of the present agricultural activity and profit has come through the more general employment of American workers.—Troy, N. Y., "Record."

The United States had in 1873 15 cents per capita in silver and now has \$8.77 per capita. Belgium then had \$2.88 per capita; now she has \$8.71 per capita. Italy then had \$8.6 cents per capita; now she has \$1.35. The Netherlands had then \$9.56 per capita; now she has \$1.16. Austria-Hungary then had \$1.11 per capita; now she has \$2.76. Australasia had \$1.15 per capita; now she has \$1.49. Sweden in 1873 had 98 cents per capita in silver; now she has \$1.00 per capita. Norway 89 cents per capita; now she has \$1.00 per capita. Russia then 23 cents per capita; now 38 cents per capita. The only nations which have at all decreased are Great Britain, France, Germany, and Denmark. Great Britain's per capita is \$2.60 instead of \$2.93; that of France has fallen from \$13.85 to \$12.94; that of Denmark from \$4.16 to \$2.35; and that of Germany from \$7.47 to \$4.20 per capita. This data will be of interest in the campaigns of this fall where the silver question is discussed.

Nerves

Are the Messengers of Sense,—the Telegraph System of the human body. Nerves extend from the brain to every part of the body and reach every organ. Nerves are like fire—good servants but bad masters. Nerves are like the blood and are therefore quick in character. Nerves will be weak and exhausted if the blood is thin, pale and impure. Nerves will surely be strong and steady if the blood is rich, red and vigorous. Nerves find a true friend in Hood's Sarsaparilla. Nerves do their work naturally and well—the brain is unclouded, there are no neuralgic pains, appetite and digestion are good, when you take Hood's Sarsaparilla.

ANOTHER VICTORY!

Grassham Knocked Grayot out in a Joint Discussion at Marion Last Saturday.

THE BOLD DEFENSE MADE

By Grassham for the Cause of a Sound Currency Unanswered—Our "Jounie" Couldn't "Tare" the Load.

(Smithland Gold Standard.)

We have in our hands a letter from Crittenden county, written by one of the most distinguished men there. He says:

"I am glad to inform you that the joint discussion at this place—Marion—Saturday between Messrs. Grassham and Grayot, resulted in a decided victory for Charley. His masterly defense of sound money—which Grayot did not attempt to answer—was well received. The Republicans of this county are solid for him, and his statement that he was for Rankin—the Populist candidate for Legislature—will give him the Middle of the Road Populists, who I am advised were for him before. I sincerely believe that we will give him two hundred majority in this county."

"The silver leaders have not been as downcast since the defeat of Bryan as they were after the discussion."

The silverite editor of the Smithland Banner will regret to hear that his "Jounie" has received his Waterloo, and at the hands of Grassham. In all their joint discussions Grassham has been the orator. Grayot has never attempted to answer his arguments. Charley is a young man of ability and if elected will make an official of whom the state will be proud.

DOWN IN THE MINES.

Since the resumption of work by so many miners in the North, coal shipments to North and West from this point have about ceased.

The Seaboard Coal Company will soon have completed a large coal bin wherein they can stock several cars of coal and be able at all times to keep a good supply on hand.

Foreman Thos. Robinson of the Empire mines was at home here with family last Sunday. On account of scarcity of coal cars business at that place has suffered.

Simeon Roberts, who has had charge of the lap and machinery at the opening of the old Arnold mines, is pleased with the prospects of again being able to move back to Earlington as soon as the machinery is moved here.

The Monarch Coal Company so we are informed are contemplating in the near future the placing of mining machinery in that mine whereby they can be able to compete with other companies by placing cheaper coal on the markets than they are now able to do.

LOCAL NEWS.

Announcement has been made that Miss Callie Wade and Mr. John Wilson were to be married at the home of the bride's parents last night.

Mr. J. T. Alexander, the popular Madisonville merchant, announces in THE BEE this week a special cloak opening for the benefit of the Earlinton people. See his advertisement.

Henry Holland is the only newly made convict that will be sent up by the present term of the Hopkins County Circuit Court. And his term is short. He gets one year on the charge of assault with intent to kill.

Mrs. M. M. Murphey, who is always at the front in millinery business in Madisonville, has a handsome advertisement in this issue of THE BEE calling attention to her splendid line of new goods. See her announcement.

Several of Harry Corey's teams have been hauling dust which Col. Robert Wood, Jim Parker and others have shovelled off the high way between here and Madisonville. Uncle Oscar Stevens suggests that they ought to call a meeting and pray for rain.

Clarence Cherry, Mrs. I. I. Cherry and little Miss Ramsey one day last week, and cast their hooks in the waters of Loch Mary for a few hours. As their catch has not been reported it is supposed not to surpass the usual luck of more experienced anglers.

Rev. S. H. Lovelace is the new preacher in charge of the Madisonville circuit. He comes from Louisville and preached his first sermon on his new work at Madisonville last Sunday. His appointments at Earlinton will remain as Mr. Cherry's were and he will preach to the Earlinton congregation on the next fourth Sunday.

Died.

On Monday night after a brief illness, a little child of Mr. and Mrs. James Barnes, of this place. Its death was unexpected although it had never been a healthy child. Remains were interred at Rose Creek Cemetery Tuesday evening. THE BEE extends sympathy to the sorrowing ones.

School Building Dedicated.

The Hanson public school building was dedicated on Monday by very appropriate exercises arranged by Prof. E. E. McClellan, principal. There was a large attendance of Hanson people, who appreciate their school and their teachers, and not a few of the most progressive teachers of the county were present and took part in the program. The editor of THE BEE regrets his inability to attend the dedication.

Rev. J. T. Cherry.

Rev. J. T. Cherry and family left Madisonville Tuesday for Franklin, where lies his new work for the coming year. There are very many of our county's people who very much regret their departure, but this is all in the regular order of a Methodist preacher's life and the transfer to a new work is never a surprise. There is comfort in the thought that Mr. Cherry goes to a good work and the best wishes of the people of Hopkins county go with him.

A Pleasant Affair.

Saturday evening, quite a number of young people were pleasantly entertained at the home of Miss Lizzie Sullivan, in honor of her cousin, Mr. John Mahoney, of Gulfport, Miss., who is visiting here. Delightful music was rendered by Misses Sullivan, McGrath and Victory, after which all joined in various entertaining games. At 10.30 o'clock the party was invited into the dining room, where dainty refreshments were served. All expressed themselves as spending a most enjoyable evening.

The Woman's Friend

"I know from my own experience that for ladies of a constipated habit there is nothing to supply the place of German Liver Powder." — Mrs. J. P. Menness, Springfield, Ohio.

It has been German Liver Powder for me, and would not be without it" — Miss Jessie Green, Abiline, Tex.

"Friends advised me to try German Liver Powder for long standing liver complaint. I had relief before I had taken one bottle. It did me more good than all medicines prescribed by physicians" — Mrs. John Campbell, Jeffersonville, Ind.

Hospital Doctors.

George Hale lives upon "Methodist hill" and is the proud owner of a hog whose age is as uncertain as that of an old maid. A few days since the ancient equine showed some signs of indisposition and Harry Corey, who would not hesitate to proclaim the age and blood of the cow that "jumped over the moon," was called in to diagnose the case. After a careful scrutiny, Harry prescribed a liberal diet of hay and corn with an accompaniment of oats. Now, as Corey has learned, knows about as much about a horse as a billy goat does about the multiplication table, but he assumed a wise look and decided that it was a pronounced case of hots, and administered about two pounds of quick lime, which caused enough to scour the bowels, and caused its mouth fearfully.

Jim Dean's advice and counsel was next consulted. Judge Foster, by the way, has a son named Harry who very much regret their departure, but this is all in the regular order of a Methodist preacher's life and the transfer to a new work is never a surprise. There is comfort in the thought that Mr. Cherry goes to a good work and the best wishes of the people of Hopkins county go with him.

Although the cards of invitation bore the inscription, "No presents," it did not prevent some of the guests from contributing many handsome and costly articles suited to the occasion. On the whole, the affair was a success in every way, and, as intimated above, had a far deeper significance than the mere formalities of an entertainment, by bringing people together in social intercourse to the ultimate good of all.

A Card.

To the voters of Hopkins County:

I hereby accept the nomination for the office of County Court Clerk of Hopkins County, which was given me by the Republican party in convention assembled at Madisonville, Ky., on the 6th day of September, 1897. I very gratefully appreciate this and other high honors conferred on me in the past by my party, and if elected to the office of County Court Clerk at the coming election, I promise a full and faithful discharge of the duties of the office. Owing to having been confined to my home on account of sickness of myself ever since my nomination, I shall not have the opportunity of seeing all my friends personally before the election, and I will just state to one and all of them, irrespective of party persuasion, that I shall very gratefully appreciate any assistance or support that they may render me. While I am making the race for the office of County Court Clerk as the nominee of the Republican party, I desire to have my many friends of each political party to fully understand that I am not too partisan to fully appreciate their support, and if elected I propose to so conduct myself and discharge the duties of the office, as to render the greatest amount of satisfaction to the greatest number of the people.

A Popular Proprietary
Medicine Sold at Retail
for Five Cents a Package
—the first experimental
step in a direction that
may lead to a revolution in
the trade.

A New York company of manufacturing chemists, the Bissell Chemical Company, placed upon the market about five years ago a medicinal tablet or "tablets" composed of a special preparation of the bark of the Balsam Fir. This tablet was sold to the more general use among physicians and dentists than any other, for the cure or alleviation of such ills common to man as have their origin in an impaired digestion or weak nervous system.

The catalogue of this included under the head of "tablets" is sold to include nearly every disease and ailment that can be named, and the tablet is sold at a lower price than any other. The company have entered into a general arrangement with the Bissell Chemical Company, to sell their tablet to the trade upon terms which will permit a package being sold by the druggist or apothecary at a price lower than can be obtained by any other manufacturer.

The company will not discontinue their manufacture and sale in the form with which they have now it is, but will continue to do so, and will endeavor to improve it.

The tablet is now being manufactured in a new form, and is being sold at a lower price.
